CQUniversity AUSTRALIA

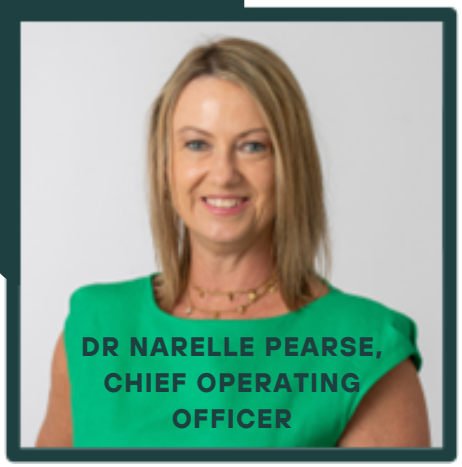

Sustainability Report 2025

Published March 2026

Sustainability is not just a guiding principle—it is embedded in how we operate, engage with our communities, and plan for the future.

Message from our Leaders

At CQUniversity, sustainability is central to how we operate, govern, and plan for the future.

The 2025 Annual Sustainability Report provides an overview of our sustainability initiatives, achievements, and progress across learning, research, operations, and partnerships during the reporting year. This year, the report focuses on key stories, outcomes, and alignment with the United Nations Sustainable Development Goals (SDGs), highlighting our broader sustainability impact rather than reporting solely against specific targets. This approach reflects both the transition to the Sustainability Framework 2024–2028 and the intent to present a more holistic view of sustainability activities across the University.

In 2025, our focus has been on embedding the Sustainability Framework 2024–2028 and the Decarbonisation Plan into everyday operations and long-term planning. We have advanced practical outcomes across our campuses, including investments in renewable energy, improved waste and water management, environmental monitoring, and campus-based management plans—demonstrating our commitment to measurable improvement and accountability.

Sustainability at CQUniversity also encompasses social and community impact. This year, we continued to support equity and access in education, encourage participation in sustainability initiatives, and deliver applied research addressing regional challenges. The report highlights selected achievements and outlines next steps in CQUniversity's ongoing sustainability journey.

I thank our staff, students, and partners whose collaboration and leadership make this progress possible. Looking ahead, CQUniversity will continue to embed sustainability across the organisation, ensuring we remain responsive, resilient, and accountable to our communities.

Times Higher Education
Impact Rankings
2025 **TOP 30**

At a glance - 2025

Key Impact Highlights

50% of electricity for Queensland campuses sourced from renewable solar
11,000+ work-integrated learning placements delivered
$2M+ awarded in donor funded student scholarships
442 research publications aligned to the UN SDGs
25th globally – Times Higher Education Impact Rankings

People & Community

88.9% of students from one or more equity groups
70.7% of students from regional or remote areas
63 cultures represented across the student cohort
210+ staff supporting the CQUniCares Fund

At a glance - 2025

Environment & Operations

4% Water reduction (**162,026 to 155,485 KL**)

1% power reduction **(22,669,866 kWh to 22,524,614 kWh)**

Over **11,000,000 kWh** sourced from Renewable energy

29% reduction of scope 1 & 2 emissions (from 2021 baseline)

Over **150 native plants** established across Rockhampton North

Over **450** EV charging sessions **(10,290 kWh)**

16% reduction in total waste. **12%** increase in diversion

Our Sustainability Framework

Guiding our sustainability journey

CCQUniversity's Sustainability Framework 2024–2028 sets a clear direction for embedding sustainability across learning, research, operations, and partnerships. Aligned with the University's Strategic Plan, the Framework turns ambition into action—guiding decisions, investment, and accountability across the institution.

Built on a people, planet, and partnerships approach, the Framework reflects a broad view of sustainability that balances environmental responsibility with social impact, economic resilience, and strong governance. This approach recognises CQUniversity's unique role as a dual-sector university with deep regional connections and a global outlook.

Delivered through nine interconnected elements, the Framework drives continuous improvement through transparent reporting and measurable outcomes. Decarbonisation is embedded across all elements, guided by the University's Decarbonisation Plan and aligned with national net zero targets.

Sustainability at CQU
Our Journey

2011
Joined ACTS
Environmental sustainability committee (CoP) established

2016
Sustainability under DFM business area
DFM developed the 1st sustainability policy and framework

2017
Green buildings council member
Pilot recycling program
Mackay, Bundaberg & Emerald LED lighting conversion upgrade

2018
Clean up Australia - Platinum business supporter
Sustainability officer role created
Melbourne LED lighting conversion

2019
Ditch the disposable campaign launched
CQU joins a QLD Uni consortium for long term renewable energy purchase
Rockhampton North Outdoor LED lighting conversion upgrade
CMERC (Coastal Marine Ecosystems Research Centre) founded

2020
Water metering on North Rockhampton campus
Installation of waste bin stations
200,000L capacity of rainwater tanks installed
Green Gown Awards nominee – Ditch the disposables

2021
1st 5 Green star designed buildings - School of Mining (Rockhampton) & School of manufacturing (Gladstone)

2022
Review of CQU's carbon emission undertaken, plan for Net zero by 2050
Recycling rollout completed; waste audits undertaken
Reduced printed paper campaign launched
Food waste from Residential kitchen taken to local Croc farm

2023
200kW solar array at Emerald campus constructed
1st EV charging station installed Rockhampton North

2024
Release of the Sustainability framework 2024-2028
Release of the decarbonisation strategy, to guide CQU net zero targets
Development of campus based Environmental management plans (EMP) for Rockhampton & Bundaberg

2025
Rockhampton North LED rollout program – stage 1
EMPs for Emerald, Mackay (city & Ooralea) & Gladstone (including CMERC)
Campus Waste management plan
Continued rollout of smart meters (water & energy) across Rockhampton north

People & Learning

1 Lifelong Learning

Our students at a glance

- 88.9% of students belong to one or more equity groups
- 43.7% of students were from low SES backgrounds
- 5.5% of students were from non-English speaking backgrounds
- 70.7% of students resisded in regional or remote areas
- 9.3% of students live with a disability
- 59% of students were female
- 90% of international students were from lower/middle-lower income countries
- 63 cultures represented by our students

Our policies and plans to support diversity, inclusion and success for all students

- Disability-informed action plan launched in 2025
- Gender, Equity, Diversity and Inclusion Action Plan launched in 2025
- Stretch Reconciliation Action Plan launched in 2025
- Graduate Guarantee Program
- Work-Integrated Learning Framework

Learning for Impact

1 Lifelong Learning

134 undergraduate courses offered

101 postgraduate courses offered

168 micro-credentials and vocational courses offered

92%+ of undergrad programs have social innovation and sustainability embedded into the curriculum

98% bachelor-level courses include an embedded work-integrated learning component

11000+ Work-Integrated Learning Placements undertaken in 2025

$2million+ in donor funded scholarships awarded to students

2025 Graduate Outcomes

61.3% were female

84.9% were from equity groups

78.6% undergraduate satisfaction rate

80.9% postgraduate satisfaction rate

92.8% undergraduate employment rate

93.7% postgraduate employment rate

12.7% undergraduate further study rate

8.3% postgraduate further study rate

$ 77 700 undergraduate median salary

$100 900 postgraduate median salary

Teaching & Learning Impact

1 Lifelong Learning

SIX CQU-TRAINED APPRENTICES COMPETE AT 2025 WORLDSKILLS NATIONALS

VIRTUAL LAB BRINGING LEARNING TO LIFE WINS NATIONAL AWARD

A team of academics has developed an innovative Virtual Learning Environment (VLE) that is revolutionising the way students gain hands-on experience with the emerging technologies – and the program was named an Australian Award for University Teaching (AAUT) Citation for Outstanding Contributions to Student Learning winner.

PROGRAM AIMED TO FAST-TRACK ALLIED HEALTH CAREERS WINS NATIONAL AWARD

CQU's Allied Health Workforce Pathway Program (AHWPP), led by Associate Professor Melanie Hayman, has won the 2024 Australian Award for University Teaching (AAUT) Citation for Outstanding Contributions to Student Learning, celebrating its success in transforming the way students enter the workforce.

MILLY BUILDING A SOLID CAREER FOUNDATION WITH WOMEN IN ENGINEERING AWARD

Designing a low-cost 3D-printed prosthetic limb for children in developing countries has earned CQUniversity Bundaberg student Milly Latcham a Women in Engineering Award.

GROUNDBREAKING MATHS METHOD TRANSFORMS MINDSETS

A revolutionary approach to teaching mathematics is winning hearts, minds and accolades across classrooms, thanks to Responsibility Theory developed by Dr Ragnar Purje, an Adjunct Senior Lecturer at CQUniversity.

Research with Impact

REEF RESCUE RESEARCH

New research is investigating what drives adoption of better management practices and how adoption rates can be improved to improve water quality of GBR

INSTITUTE FOR FUTURE FARMING SYSTEMS CELEBRATES 10 YEARS

CQUniversity's Institute for Future Farming Systems (IFFS) has marked a decade of delivering practical, industry-led research that's helping shape the future of agriculture in Australia and around the world.

POULTRY PATHOGEN RESEARCH TO CRACK KINKY BACK

A new CQUniversity led research project is addressing a fast-spreading pathogen that's ruffling feathers across the Australian poultry industry.

CQU RESEARCHER FINDS OLDER PEOPLE WANT TO LIVE AT HOME AS LONG AS POSSIBLE

With 97 per cent of older Central Queenslanders wanting to live in their own home as long as possible, health agencies and governments should do all they can to meet this demand.

TURTLES POWER ROCKY RESEARCHER TO CONSERVATION AWARD

CQUniversity research to protect endangered Queensland turtles has earned national recognition, with Rockhampton wildlife advocate Kymberly Robinson receiving a prestigious conservation award for her work.

Research at a glance 2021-2025

	Publications	Citations per Publication	Field Weighted Citation Impact (FWCI)*	International Collaboration**
1 NO POVERTY	57	8.4	1.43	47.4%
2 ZERO HUNGER	154	23.7	2.74	57.1%
3 GOOD HEALTH AND WELL-BEING	592	31	4.44	52.9%
4 QUALITY EDUCATION	264	10.7	1.58	28.8%
5 GENDER EQUALITY	93	10.4	1.43	38.7%
6 CLEAN WATER AND SANITATION	94	19.9	2.68	66.0%

Community and Partnerships

3 Social, Community & Partnerships

At a Glance

210+ staff supported the CQUnicares fund

$185K+ donated to students through CQUniCares academic prizes, bursaries and other initiatives

$35K+ raised in CQUniversity Annual Appeal to benefit scholarships and various projects

Sponsorship

CQU sponsored events and teams:

- Yeppoon Running Festival
- Rockhampton River Festival
- Cairns Taipans
- Rockhampton Cyclones
- Townsville and Mackay Children's Christmas Party

Outreach embedded into courses

Course delivery teams have embedded community outreach activity into some course units in allied health disciplines such as Occupational Therapy, Physiotherapy, and Oral Health. Outreach activities include:

- Homeless Connect
- Partnership with Football Queensland
- Bidgerdii Children and Family Centre
- Little Deadlies Day Out
- Professional Pickleball Association Tour
- Brisbane mobile clinics

Fresh Food Pantry

The Fresh Food Pantry Project has been launched as a pilot initiative on CQUniversity's Melbourne and Sydney campuses, which support a community of nearly 5000 international students. The project features regular pop-up stalls across Term 2 and 3, and students can register to stock up for free on culturally-appropriate fresh fruit and vegetables.

Salaam Baalak Trust

CQUniversity continues to support the Delhi-based Salaam Baalak Trust, providing educational and cost-of-living expenses to these former street children of India. CQU has been a supporter of the Trust since 2011 and has contributed to changing the lives of over 100 children.

CAPRICORN COAST WELCOMES ALL ABILITIES

CQUniversity's Universal Beach Access Hub (U-BEACH) is growing its life-changing impact, with new mobility equipment to make Emu Park Main Beach more accessible for all. The new all-terrain wheeled walker and floating wheelchair will ensure Central Queenslanders living with disabilities can get a healthy fix of sand and surf, with support from the Emu Park Surf Life Saving Club (EPSLSC) and local café The Honeybee Collective.

SOCIAL ENTERPRISE SETS STANDARD FOR WORKFORCE DIVERSITY

A CQUniversity research project is showcasing diverse workforces in Queensland's social enterprises and setting a new standard for inclusive employment in business and industry.

BLUEY BRUSHES AND BRIGHT SMILES AT CQU OUTREACH

CQUniversity students provided oral health care to children at Tarumbal C&K Kindergarten in Rockhampton. Run as part of CQU's Community Dental Outreach Clinic, the initiative brings preventive care and oral health education directly into early childhood settings — strengthening community connections and promoting lifelong oral health habits.

AWARDS CELEBRATE CQUNIVERSITY'S ENVIRONMENTAL CHANGEMAKERS

The 2025 Queensland Indigenous Women Ranger Network Awards have recognised CQUniversity community members Marky Sullivan and Zalhi Hayden for their dedication to protecting Country and culture.

CQUNIVERSITY LAUNCHES NEW RECONCILIATION ACTION PLAN

CQUniversity has launched its latest Reconciliation Action Plan (RAP). The new RAP – a Stretch RAP, which requires organisations to embed reconciliation initiatives into business strategies, so they become 'business as usual' – reflects CQUniversity's ongoing leadership in First Nations engagement, and its vision for reconciliation at an institution and sector level.

Our People & Organisational Performance

4 CQU- A Sustainable Business

Our staff at a glance

over 77% of our staff hold at least one academic qualification

65% of staff are female

692.5 hours of engaged service leave used by staff to volunteer for differernt causes and initiatives- a42% increase from 2024

53% of management staff are female

Optimise the business model

Improved financial position of the Gym and Bookshop commercial units with a respective 27% increase in budgeted revenue and a 60% improvement in the net operating result from last year.

1.35:1 A healthy current ratio as evidence of the University's strong liquidity position.

118.94% Cash inflows from operations exceed outflows meaning the University's operating activities are funding themselves without having to rely on investment or loan funds resulting in more flexibility to fund capex, repay debt and build cash reserves.

8 DECENT WORK AND ECONOMIC GROWTH

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

17 PARTNERSHIPS FOR THE GOALS

Waste & Resource Recovery

5 Waste

15.85% reduction in total waste tonnage*

424.7 Total waste tonnage (down from 504.7 in 2024)*

12% increase in diversion rates, imporving recycling rates*

81.62 Tonnes diverted from Landfill (up from 72.97 in 2024)*

4 campus waste audits undertaken, (12.63m3 volume assessed)

*Cleanaway data, Primary waste contractor for CQU

Containers for Change

Various business units across the University have adopted the 'containers for change' program which helps by recycling containers and giving the funds to charity organisations

Ditch the Disposables

We continued the whole-of-university sustainability awareness campaign, Ditch the Disposables, across our national footprint. The Ditch the Disposables campaign aims to reduce the number of single-use plastics used by staff and students.

Print Reduction

The University continues to reduce printed paper across its operations. A key example is within the School of Health, Medical and Applied Sciences, where CG91 Medical Sonography introduced laptops in sonography labs for assessment marking and student feedback across nine units. This initiative saves approximately 225,000 printed pages (around 12 tonnes) each year.

Waste Reduction

The School of Nursing, Midwifery and Social Sciences has implemented a range of waste reduction practices, including purchasing refurbished equipment and furniture, reducing reliance on manikins through more sustainable task trainers, reusing simulation consumables, and transitioning to electronic medical records for simulated patient data.

Towards Zero Waste Graduations

We have implemented changes to our graduation ceremonies to adopt more sustainable practices including offering cold water bubblers and recyclable paper cups instead of plastic water bottles to guests and online graduation booklets instead of printed copies.

Waste Management Plan

CQU developed a university-wide Waste Management Plan to guide consistent waste reduction, recycling, and resource recovery across all campuses. The plan sets clear principles and reporting processes while allowing flexibility for local campus needs, and provides a foundation for future initiatives such as improved data tracking, organic waste diversion, and ongoing engagement with staff, students, contractors, and local councils.

NO-PLASTIC PROJECT

The CQUniversity-led project is integrating live weather and ocean data with new artificial intelligence (AI) models to prevent trash hotspots in Jakarta Bay, Indonesia.

CQU CALLS FOR END TO PLASTIC POLLUTION

Plastic pollution permeates every corner of the planet and CQUniversity is doing its bit in a number of ways to help reduce it. As a key partner of the Solving Plastic Waste Cooperative Research Centre (SPW CRC), CQUniversity is working on a collaborative research project that aims to transform the way plastic products are recycled.

6 CLEAN WATER AND SANITATION
7 AFFORDABLE AND CLEAN ENERGY
11 SUSTAINABLE CITIES AND COMMUNITIES
12 RESPONSIBLE CONSUMPTION AND PRODUCTION
13 CLIMATE ACTION
14 LIFE BELOW WATER
15 LIFE ON LAND

Water Stewardship

6 Water

4% water consumption reduction overall

155,485kL total water consumption (down from 162,000KL in 2024)

17 smart water meters installed across North Rockhampton campuses providing real time monitoring and building based usage trends

6+ water tanks installed across campuses- 20000L storage capacity

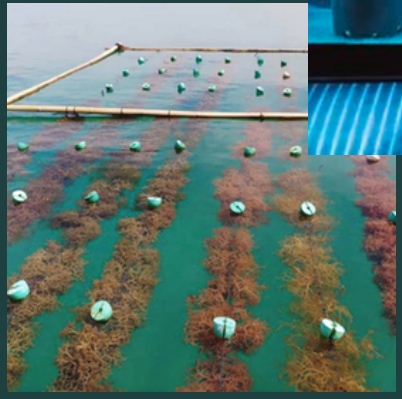

Coastal and Marine Ecosystems Research Centre

Our Coastal Marine Ecosystems Research Centre (CMERC) works with coastal industries and communities to develop practical and sustainable solutions for our unique coast and marine environments.

CMERC is the only research facility in Central Queensland focused on the southern Great Barrier Reef. Our work provides sustainable solutions to protect the reef, support Australia's blue economy, aid agricultural communities, and collaborate with local communities. There is strong demand for innovation and evidence-based best practices, especially in verifying environmental offset projects. CMERC's applied research addresses these needs.

6 CLEAN WATER AND SANITATION

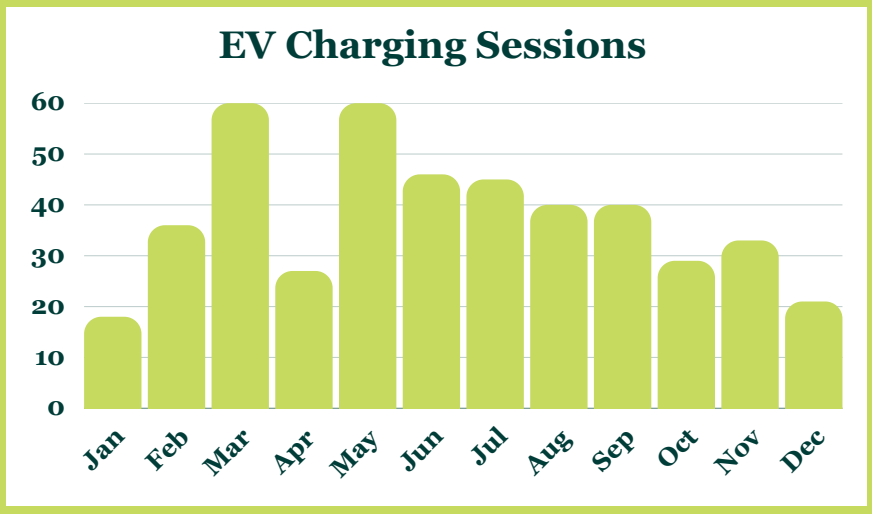

14 LIFE BELOW WATER

Energy & Emissions

7 Energy

Emission source	2025 %	2025 kg CDE*	2021 (baseline) %	2021 (baseline) kg CDE
Electricity purchased from grid	89.22	14973092	92.99	16543001
Physical or chemical processes- Livestock	0.02	3196	0.03	5091
Industrial processes- HVAC-R	9.23	1549768	5.36	953720
HV electrical equipment	0.01	1812	0	82
Transport	1.25	209148	1.23	218138
Stationary energy	0.27	44850	0.4	70537

*CDE = Carbon Dioxide Equivalent

Highlights

12.6kt CDE Scope 1 & 2 emissions

29% Reduction from 2021 emissions

200KW Solar farm at Emerald Campus

10+ Buildings added to CQU centralised HVAC monitoring

800+ Replacement LED lights (Rockhampton North campus)

7 AFFORDABLE AND CLEAN ENERGY

13 CLIMATE ACTION

Biodiversity and Land

Biodiversity

Rewilding Guidelines

CQUniversity's Dr Sally Hawkins was one of the core experts who consulted with over 100 scientists, conservationists and environmentalists to develop the new landmark Rewilding Guidelines. The guidelines provide a framework for the complex and often misunderstood conservation method and were released at the International Union for the Conservation of Nature World Conservation Congress.

Koala Research-CQ

Koala Research-CQ continues to collaborate with communities and industries to enhance koala conservation through research.

Konomie Island

CQUniversity horticulture and conservation students embarked on an island expedition to Konomie Island, undertaking vital revegetation work to restore native bushland. Working alongside the Capricorn Conservation Council, Woorabinda Aboriginal Shire Council Rangers, and the Konomie Island Environmental Education Centre P&C (KIEEC), the students were able to further their knowledge and understanding of protecting and conserving biodiversity, and how to collaboratively partake in caring for Country.

Tree Planting

over 150 native trees were planted at Rockhampton North campus in our annual tree planting event. Vice Chancellor Nick Klomp joined volunteer staff to make it a successful event.

NEW KOALA INSIGHTS THANKS TO FURRY FRIENDS

CQUniversity's Koala Research–CQ (KR-CQ) team contributes vital expertise to the CSIRO National Koala Monitoring Program, completing annual population surveys across six sites in the Clarke-Connors Range.
A distinctive feature of the project was the involvement of trained koala scat-detection dogs from the CQ-based 'Holy Scat' team, who joined the program as a research trial in 2023.

SPICY NEW CROP OPTIONS FOR FARMERS

Efforts to spice up Northern Australia's crop options are gathering pace with this season's trials of kalonji and fennel proving to be some of the best-performing yet.

AUTONOMOUS WEED-TARGETING AI DRONES

A cost-saving, environment-protecting smart system to target weeds in cotton crops has proved effective in trials at a Central Queensland farm.
CQUniversity's world-first prototype uses lightweight drones to snap thousands of high-resolution images across a crop.

NATIVE FOOD AND MEDICINE SYMPOSIUM

First Nations entrepreneurs and research scientists have come together on Darumbal land in Rockhampton to unlock the potential of regional communities in helping to grow Indigenous participation in the booming native foods sector.

14 LIFE BELOW WATER

15 LIFE ON LAND

Estate & Built Environment

Estate & Built Environment

236ha (approx) CQU owned regional campuses [Rockhampton, Mackay, Emerald, Bundaberg].

111ha (approx) manicured lands in regional campuses

125 ha (approx) 'natural' bushland

1 Newly constructed Building opened - TAFE Centre of Excellence (Rockhampton)

5 Campus Environmental management plans developed

NEW TRADE TRAINING FACILITIES OFFICIALLY OPEN IN ROCKHAMPTON

The Centre for Building Excellence is a purpose facility to deliver trades training within construction related disciplines including bricklaying, cabinetmaking, carpentry and plumbing.
The new 2330 square metre centre can accommodate more than 350 students per year and 65 students on any given day – doubling previous capacity for construction trades in the region.

INTERACTIVE INFO CENTRE OPENS IN GLADSTONE

CQUniversity's immersive and interactive Hydrogen Central has opened its doors to the Gladstone community. The community information centre is located at CQUniversity's Gladstone Marina campus and aims to coordinate hydrogen industry events and build awareness of the region's growing clean energy sector.

Looking Ahead: Sustainability Roadmap 2026-2028

- Continue with decarbonisation plan and targets
- Deliver solar carpark trail (175kw system)
- Waste Management plan implementation
- Water consumption reduction
- Undertake Flora & Fauna surveys across regional campuses
- Expand annual tree planting
- Expand smart meter program
- Continued LED replacements across North Rockhampton
- Assess other energy saving measures
